

American Procurement Services: Distributor of Noctic Medical Equipment

**American Procurement Service:
Medical Equipment & Furniture
Division**

**Please contact us for Pricing and product Information:
Info@Americanprocurement.com or Sales@Americanprocurement.com**

Item	Pic. and Model	Name	Description	Packing
1	 <p style="text-align: center;">APS-AM01</p>	<p>Aeon7800A</p> <p>Anesthesia machine</p>	<ul style="list-style-type: none"> •The first Chinese anesthesia workstation comply with USA standard •Suitable for neonate, pediatric & adult •Meet low flow requirement be multi parameter monitoring •Flow meter backlight & bright adjustable endoscope light system •Integrated high temperature sterilization CO2 absorber system •Safe & reliable gas system •CE marked, meet EU clinical requirement 	<p>Each one is packed individually in a carton Package size : 65×138× 69cm GW: 148Kg</p>
2	 <p style="text-align: center;">APS-AM02</p>	<p>Aeon7700A</p> <p>Anesthesia machine</p>	<ul style="list-style-type: none"> •CE marked, meet EU clinical requirement •Suitable for neonate, pediatric & adult •Meet low flow requirement be multi parameter monitoring •Integrated high temperature sterilization CO2 absorber system •New developed reliable gas system •Advanced Pneumatic/Electronic switch, different gas combination selection •Flow meter backlight & bright adjustable endoscope light system •Compatible multi-gas monitoring system 	<p>Each one is packed individually in a carton Package size : 100×140× 77cm GW: 148Kg</p>
3	 <p style="text-align: center;">APS-AM03</p>	<p>Aeon7400A</p> <p>Anesthesia machine</p>	<ul style="list-style-type: none"> •Classical and widely used anesthesia machine, single vaporizer •4-tubes flow meter •Suitable for adult and pediatric •High quality and durable design •CE marked, meets clinical safety requirement of EU •Solid coating and anti-dust smooth surface 	<p>Each one is packed individually in a carton Package size : 62×89× 133.5cm GW: 95Kg(without Vaporizer)</p>

4	 <p>APS-AM04</p>	<p>Aeon7200A Anesthesia machine</p>	<ul style="list-style-type: none"> •Classical multifunctional anethesia machine •Dynamic compension system for tidal volume •Volume&pressure ventilation, SIMV mode with flow trigger •CE marked, meets clinical safety requirement of EU •Advanced electromagnetic valve ensures accurate tidal volume and compensation. •Waveforms displayed include: P-T, F-T and V-T •Solid coating and anti-dust smooth surface 	<p>Each one is packed individually in a carton Package size : 82.4×138.2×68cm GW: 110Kg(with two Vaporizers)</p>
5	 <p>APS-AM05</p>	<p>Aeon7200 Anesthesia machine</p>	<ul style="list-style-type: none"> •CE marked, meets clinical safety requirement of EU •Suitable for adult and pediatric •4-tubes flow meter •7" color LCD screen •Waveforms displayed: P-T, F-T •Double vaporizers station •Integrated CO2 circle absorber •Fast-release APL valve •AGSS optional 	<p>Each one is packed individually in a carton Package size : 138.6×83.9×62.8cm GW: 85Kg</p>
6	 <p>APS-AM06</p>	<p>Aeon7500A Anesthesia machine</p>	<ul style="list-style-type: none"> •The first Chinese anesthesia workstation •SIMV mode with flow-trigger •Independent 10.4" screen, flexible monitoring angle •CE marked, meet clinical safety requirement of EU •Advanced electromagnetic valve ensures accurate tidal volume and compensation •Parameters monitored: P-T, F-T, V-T waveforms & P-V, F-V loops 	<p>Each one is packed individually in a carton Package size : 93×135.4×62cm GW: 120Kg</p>
